

Husky GL500 P85/67 E100 (1998)

General Purpose Injection Moulding Machine

Technical Specifications	
Clamp Force	500 Ton
Distance Between Tiebars	920 * 920 mm
Platen Size	1306 * 1333 mm
Ejector Stroke	150 mm
Mould Shut Height	500-1100 mm
Injection Pressure	2200 bar
Injection Stroke (max)	300 mm
Injection Capacity	1058 cm ³ /shot
Screw Diameter	100 mm
Total Weight	33800 kg

Electrical Specifications	
Voltage/Frequency/Phase	400/50/3 V/Hz/Ph
Pump Drive, connected load	150 Kw
Heating Capacity	98 kW
Total Connected Load	248 Kva

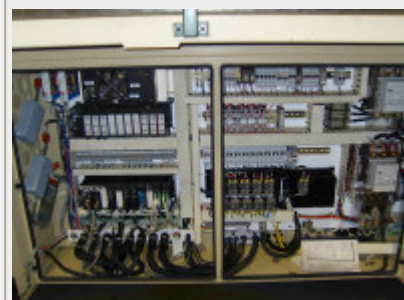

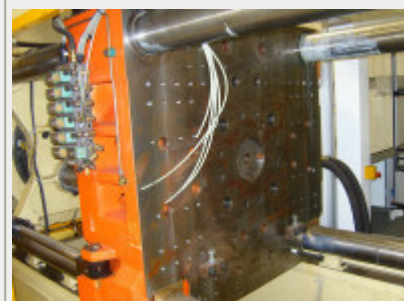

Includes:

- Harmonic Links (not fixed to machine yet)
- Waldorf Take Out Robot, capable of converting to in-mould labeling.

Machine in excellent condition, low hours.

Available EXW UK

Price: GBP 65,000
